

Table of Contents

I. Introduction.....	I-1
II. Data Acquisition.....	II-1
A. Review of Coastal Statewide Planning/Management Case Studies.....	II-1
B. Data Collection Process	II-3
C. Identification and Overall Summary of Key Datasets	II-3
1. Overview of North Carolina Coastal Geography.....	II-4
2. Waves and Climate	II-6
3. Water Levels	II-8
4. Tropical Storms.....	II-14
5. Digital Ortho Photographs	II-20
6. Historical Shorelines and Erosion Rates.....	II-20
7. Beach Profiles	II-26
8. Geological Framework, Inlets, and Sand Resources.....	II-28
9. Beach & Inlet Management Strategies Used in North Carolina	II-36
10. Coastal Environment.....	II-46
11. Socio-Economic Value of N.C. Beaches and Inlets.....	II-46
12. Regional Numerical Models and Investigations	II-46
13. Vulnerability Studies	II-47
14. Sediment Budgets and Sediment Transport Potential.....	II-62
D. Data Gaps.....	II-63
1. Geology.....	II-63
2. Physical Processes	II-63
3. Economics.....	II-64
4. Monitoring	II-64
5. Sea Level Rise (SLR)	II-64
III. Environmental Considerations.....	III-1
A. Ecological Habitat.....	III-1
1. Water Column.....	III-1
2. Shell Bottom	III-4

3.	Submerged Aquatic Vegetation	III-6
4.	Wetlands	III-8
5.	Soft Bottom.....	III-11
6.	Hard Bottom	III-13
B.	Threatened & Endangered Species	III-16
1.	Endangered Species Act (ESA) and Migratory Bird Treaty Act (MBTA).....	III-16
2.	Bald and Golden Eagle Protection Act (BGPA) and Migratory Bird Treaty Act (MBTA).....	III-18
3.	Marine Mammal Protection Act (MMPA)	III-19
4.	Protected Species Data Sources	III-19
C.	Cultural Resources	III-21
IV. Socio-Economic Value of North Carolina Beaches and Inlets.....		IV-1
A.	Data Sources	IV-2
1.	National-Level Data Sources	IV-2
2.	State-Level Data Sources.....	IV-2
3.	Issue-Specific Studies	IV-2
B.	Value of Beaches	IV-2
1.	Value of Coastal Property at Risk.....	IV-2
2.	Value of Beach Recreation	IV-7
3.	Value of Shore and Pier Fishing	IV-16
4.	Value of Marine Recreational Services	IV-19
C.	Value of Inlets.....	IV-19
1.	Value of Commercial Fisheries	IV-19
2.	Value of For-Hire (Charter Boat and Head Boat) Fisheries	IV-25
3.	Value of Private Recreational Boating	IV-32
4.	Value of Coastal Boat Building	IV-37
5.	Value of Coastal Marinas	IV-38
D.	Economic Impacts of 50% Beach Width Loss	IV-39
1.	Background and Past Studies.....	IV-39
2.	Scenario Analysis	IV-41
E.	Economic Impacts of an Inlet Shoaling Scenario	IV-45
1.	Impacts on Commercial Fishing	IV-45
2.	Impacts on For-Hire Fishing	IV-46

- 3. Impacts on Boat BuildingIV-47
- 4. Other Impacts.....IV-47
- F. Overall Summary of Socio-Economic Value of Beaches and Inlets in North CarolinaIV-49
- V. Development of Beach and Inlet Management Regions..... 1**
 - A. Regional Concerns - The Need for a Regional Approach 1
 - B. Developing Regions and Sub-regions..... 2
 - 1. Geologic Features 4
 - 2. Developed/Undeveloped Shoreline Reaches 7
 - 3. Erosional Patterns/Sediment Resource/Dredging Concerns 8
 - C. The Beach and Inlet Management Regions 10
- VI. Development of Beach and Inlet Management Strategies..... VI-1**
 - A. Background and Historical PerspectiveVI-1
 - B. Policy ConsiderationsVI-2
 - 1. SetbacksVI-2
 - 2. Inlet Hazard AreasVI-6
 - 3. COBRA Zones.....VI-7
 - 4. Sea Level RiseVI-7
 - C. Beach and Inlet Management Strategies.....VI-11
 - 1. Beach Nourishment.....VI-11
 - 2. Shoreline Management Practices.....VI-12
 - 3. Storm RecoveryVI-13
 - 4. StructuresVI-13
 - 5. Dredging and Sand BypassingVI-14
 - 6. Inlet Management/Relocation.....VI-19
 - 7. Environmental Considerations for StrategiesVI-20
 - 8. Socio-economic Considerations for StrategiesVI-25
 - 9. Land Use ConsiderationsVI-25
 - D. Statewide Beach and Inlet Management StrategiesVI-26
- VII. Stakeholder Process..... VII-1**
 - A. The Advisory Committee and NCDENR Technical Working Group VII-1
 - B. Other Stakeholder Groups VII-3
 - 1. Meetings and Presentations VII-3

2.	The CRC Science Panel	VII-3
C.	The Public	VII-4
1.	The Website	VII-4
2.	Regional Public Information and Input Meetings.....	VII-5
VIII.	Region 1	VIII-1
A.	Current Available Pertinent Datasets	VIII-2
1.	Waves and Water Levels	VIII-2
2.	Tropical Storms.....	VIII-7
3.	Digital Orthophotography	VIII-10
4.	Historical Shorelines and Erosion Rates	VIII-10
5.	Beach and Inlet Surveys	VIII-12
6.	Geologic Framework	VIII-15
7.	Sediment Budgets	VIII-27
8.	Potential Sand Resources	VIII-28
9.	Environmental Considerations.....	VIII-31
10.	Economic Valuation	VIII-40
B.	Potential Beach and Inlet Management Strategies.....	VIII-43
1.	Historical Strategies	VIII-43
2.	Potential Management Strategies.....	VIII-50
C.	Costs and Effectiveness of Strategies	VIII-52
1.	Historical Costs.....	VIII-52
2.	Potential Costs	VIII-54
D.	Data Gaps.....	VIII-55
IX.	Region 2	IX-1
A.	Current Available Pertinent Datasets.....	IX-6
1.	Waves and Water Levels	IX-6
2.	Tropical Storms.....	IX-15
3.	Digital Orthophotography	IX-20
4.	Historical Shorelines and Erosion Rates.....	IX-22
5.	Beach and Inlet Surveys	IX-27
6.	Geologic Framework	IX-32
7.	Sediment Budgets	IX-63

8.	Potential Sand Resources.....	IX-69
9.	Environmental Considerations.....	IX-73
10.	Economic Valuation.....	IX-96
B.	Potential Beach and Inlet Management Strategies.....	IX-104
1.	Historical Strategies.....	IX-104
2.	Potential Management Strategies.....	IX-118
C.	Costs and Effectiveness of Strategies.....	IX-123
1.	Historical Costs.....	IX-123
2.	Potential Costs.....	IX-128
D.	Data Gaps.....	IX-129
X.	Region 3.....	X-1
A.	Current Available Pertinent Datasets.....	X-4
1.	Waves and Water Levels.....	X-4
2.	Tropical Storms.....	X-11
3.	Digital Orthophotography.....	X-15
4.	Historical Shorelines and Erosion Rates.....	X-16
5.	Beach and Inlet Surveys.....	X-19
6.	Geologic Framework.....	X-22
7.	Sediment Budgets.....	X-28
8.	Potential Sand Resources.....	X-32
9.	Environmental Considerations.....	X-35
10.	Economic Valuation.....	X-44
B.	Potential Beach and Inlet Management Strategies.....	X-50
1.	Historical Strategies.....	X-50
2.	Potential Management Strategies.....	X-57
C.	Costs and Effectiveness of Strategies.....	X-61
1.	Historical Costs.....	X-61
2.	Potential Costs.....	X-63
D.	Data Gaps.....	X-64
XI.	Region 4.....	XI-1
A.	Current Available Pertinent Datasets.....	XI-6
1.	Waves and Water Levels.....	XI-6

2.	Tropical Storms.....	XI-15
3.	Digital Orthophotography.....	XI-20
4.	Historical Shorelines and Erosion Rates.....	XI-21
5.	Beach and Inlet Surveys	XI-25
6.	Geologic Framework	XI-28
7.	Sediment Budgets	XI-35
8.	Potential Sand Resources.....	XI-37
9.	Environmental Considerations.....	XI-41
10.	Economic Valuation	XI-56
1.	Historical Strategies.....	XI-61
2.	Potential Management Strategies.....	XI-70
C.	Costs and Effectiveness of Strategies	XI-75
1.	Historical Costs.....	XI-75
2.	Potential Costs	XI-77
D.	Data Gaps.....	XI-79
XII. Funding and Prioritization Strategies for North Carolina Beach and Inlet Projects.....		XII-1
A.	Economic Value of North Carolina Beaches	XII-2
1.	Coastal & Beach Tourism.....	XII-2
2.	The Economy of Beaches Compared to Other Recreational Activities.....	XII-4
3.	The Economic Contribution of the State’s Beaches and Inlets as a Development Region.....	XII-5
B.	Evaluation of Existing Shoreline and Beach Project Funding Programs.....	XII-10
1.	Federal Funding Programs.....	XII-10
2.	North Carolina Funding: Division of Water Resources Development Project Grant Program	XII-19
3.	Case Studies: Florida & Texas.....	XII-27
4.	Local Government Project Funding Approaches in North Carolina.....	XII-40
C.	Funding Program Recommendations.....	XII-43
1.	Dedicated Trust Funds: An Overview	XII-43
2.	North Carolina Beach, Inlet and Waterway Fund.....	XII-47
3.	Regional Management	XII-51
D.	Potential Prioritization Criteria for State Funding	XII-52
E.	Recommendation Summary: A Dedicated State Fund and Regional Commissions.....	XII-54

Appendices

- Appendix A – Literature Review of Other Programs
- Appendix B – Data Bibliography
- Appendix C – Coastal Geology of the Southern Province
- Appendix D – Beach Nourishment Database
- Appendix E – Dredging Database
- Appendix F – Environmental Mapping
- Appendix G – Stakeholder Process
- Appendix H – 2001 Legislative Report on Beach Issues
